Getting Started
Charging the battery pack
1. Slide the lock lever down to open the battery pack cover.
2. Insert the battery pack.
3. Close the cover.
4. Confirm that the camera is turned off.
5. Open the connector cover (HDMI OUT, Multi/Micro USB Terminal) and connect the camera to an activated computer with the micro USB cable (supplied).

Inserting a memory card
• Insert the memory card properly, confirming each side is facing the correct direction.
• To eject the memory card, lightly push the memory card once.

Notes
• Operation with all memory cards is not assured.
• Confirm the direction of the memory card. If you forcibly insert the memory card in the wrong direction, the memory card, memory card slot, or image data may be damaged.
• Format the memory card before use.
• Confirm that the connector cover and the battery pack/memory card cover are securely closed and any foreign matter is not stuck in the cover before use. Otherwise, it may result in water immersion.

Setting the clock
1. Press the NEXT or PREV button and select [SETUP] -> [CONFG] -> [DATE] to set the date and time, and region.

Recording
1. Press the NEXT or PREV button to turn the camera on.
2. Press the NEXT or PREV button to select the desired recording mode.
3. Press the REC button to start recording.

Notes
• If the camera memory is full, recording stops automatically.
• The memory card will be unusable if it is formatted in a computer or another device.
• Inserting a new memory card may be required when the memory card is full.
• To protect the memory card slot, close the connector cover when not in use.

You can change the shooting mode and various settings of the camera in [SETUP] mode.
1. Press the NEXT or PREV button to display [SETUP] and press the ENTER button.
2. Press the NEXT or PREV button to display the item to set and press the ENTER button.
